PROFESSIONAL STRENGTHS

- Business-first product thinking
- Clear client communication
- End-to-end technical ownership
- Scalable architecture decisions
- Reliable production delivery

LEADERSHIP EXPERIENCE

Founder & CEO / Lead Engineer

FAYDAZONE | LIVE PRODUCT

- Founded and engineered a hyperlocal commerce ecosystem connecting customers with retailers, wholesalers, manufacturers and service providers.
- Own product strategy, system architecture, user experience, full-stack delivery, deployment and continuous product evolution.
- Built onboarding, location-based discovery, product and service listings, and mobile commerce journeys in one platform.

SELECTED PRODUCTION WORK

Jalaram Imitation

B2B COMMERCE

Delivered a mobile-first wholesale jewellery catalogue with structured product discovery, custom enquiries and direct WhatsApp conversion.

Gurudev Tour & Travels

TRAVEL BOOKING

Built a responsive, multilingual travel experience covering service discovery, seat selection and booking workflows.

Confidential client products

BUSINESS SOFTWARE

Delivered e-commerce platforms, CRM systems, admin panels, mobile applications, AI chatbots and workflow automation tools.

HOW I DELIVER

- Translate business goals into a clear product and technical plan.
- Design and build complete experiences across client, server and cloud layers.
- Ship production-ready software with testing, deployment and ongoing support.

PRODUCT EXPERIENCE

WEB

SaaS products, portals, dashboards and responsive business websites

COMMERCE

B2C, B2B, catalogue, marketplace and WhatsApp-assisted sales

MOBILE

Customer and business applications for Android, iOS and PWA

AI

Chatbots, intelligent agents, document workflows and automation

CLOUD

APIs, databases, AWS infrastructure, CI/CD and production operations
